KEYNOTE SPEAKERS

Dr Richard Harris

Dr Richard “Harry” Harris has worked in anaesthesia, diving and aeromedical medicine around the world.

Harry established the first flooded cave rescue capability in Australasia and the 2018 Thailand cave rescue was an opportunity to put this training to work.

In 2018 he received the Star of Courage, Australia’s second highest civilian award for bravery, and the medal of the Order of Australia for his role in the Thailand cave rescue. Harry was the joint 2019 Australian of the Year with his dive partner Craig Challen. He is now primarily working as a speaker, author and filmmaker.

Dr Anika Molesworth

Dr Anika Molesworth is a thought leader on food systems and climate change, a researcher in international rural development and has a passion for vibrant farming communities and healthy ecosystems.

As a young, female farmer and scientist tackling the world’s biggest challenges, she is smashing the status quo and inspiring thousands through engaging and empowering conversations and actions.

Anika is a Co-Founding Director of Farmers for Climate Action – a national network of over 35,000 Australians undertaking climate change action. She has been named the Young Farmer of the Year, and a Young Australian of the Year NSW Finalist.

Christian Boucousis

Google “Christian Boo Boucousis” and you’ll discover a world-class speaker with hundreds of reviews attesting to his life changing insights.

Fulfilling his boyhood dream of becoming a fighter pilot at the age of 21, he transitioned into business after the diagnosis of a crippling auto-immune disease 10 years later.

His “Deep Performance Mindset” replaces the outdated, expensive, resource-intensive and unsustainable “high performance” mindset that consistently fails to deliver its lofty expectations. Organisations like McDonalds, Microsoft and Woolworths are a few of the global leaders who’ve experienced immediate and dramatic ongoing performance leaps.

Ita Buttrose AC, OBE

Ita Buttrose AC, OBE is Chair of the Australian Broadcasting Corporation (ABC) (livestreamed).

During her distinguished media career, she has held executive and editing roles for major Australian media companies including Australian Consolidated Press, News Ltd and Fairfax. She has worked in print, radio and television, written 11 books and was inducted into the Australian Media Hall of Fame in 2017.

In 2019, Ita became a Companion of the Order of Australia (AC) for her service to the community through leadership in the media, the arts, the health sector and as a role model. She has received an OBE for her services to journalism and a Centenary Medal for business leadership.

Dan Pronk

Dr Dan Pronk studied medicine on an army scholarship and upon qualifying as an army doctor he completed SAS selection and moved into special operations.

He served for five years, including four tours of Afghanistan and was awarded a Commendation for Distinguished Service for his conduct in combat on his second tour.

After discharging from the army, he completed an MBA and moved into medical leadership roles. He is the resident medic 'Dr Dan' on SAS Australia and in 2021 he co-authored the best-selling book The Resilience Shield with his brother Ben and fellow SAS veteran Tim Curtis.
